

THINGS EVERY PARENT SHOULD KNOW ABOUT PLAY

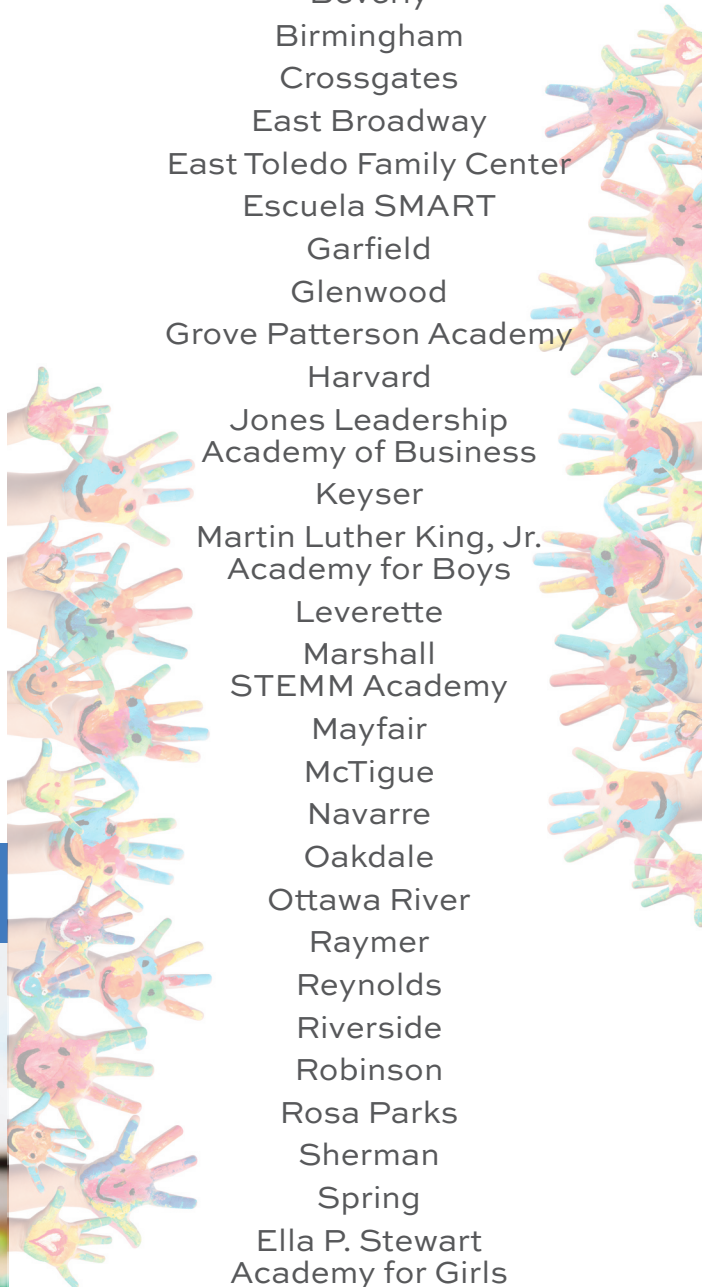

Creative Curriculum is a play based and whole-child approach to education—one where children have opportunities to develop not only math and literacy skills but also social–emotional, physical, and cognitive skills—is developmentally appropriate and hands-on learning better prepares children for life well beyond their time in a classroom.

- Playing is learning.
- Play benefits your child's development.
- Play provides children with an opportunity to develop relationships with other children and adults while enhancing communication skills.
- Play allows children to express their feelings and relieves stress.
- Play promotes curiosity and challenges children to develop problem solving skills.
